

CCA SERIES HEAVY DUTY BENCH GRINDERS

Looking for a complete grinding center with unlimited power and unlimited life?: The CCA Series is the answer! The strongest combined grinder and polisher for industrial applications: a powerful industrial grinder and polisher together. On the 50kg stand an Italian dust extractor completes this tool: precisely what you need for a clean workshop.

An Italian dust extractor with aluminum "self-cleaning" fan is assembled on the stand. Each fan we assemble is balanced via stroboscope to zero, in order to eliminate vibrations and noise.
